HOAGLAND'S NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.
It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.
It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

The China Trade and Pacific Railroad Freights.

From the Chicago Tribune, June 10th.

As a clue to the immense opening which would be given to our trade and manufactures, if the Pacific Railroad freights could be reduced to a point at which they could compete with the longer ocean routes, we cite some facts relative to the commerce of China with England and the United States, as given by C. C. Coffin, in his new book of Asiatic travel, which tell their own story. Our annual importation of tea from China ranges at from 30,000,000 to 40,000,000 pounds. In 1867, we imported $7,510,066 worth of tea, and nearly enough of other products to pay for all our exports to China, which amounted to only $289,000 in value. The entire balance of seven and a half millions we paid in silver. Great Britain on the other hand, imported twice as much tea as we, and still brought the Chinese largely in her debt, and made them pay a balance of $33,000,000 in specie. Of England's exports to China, about $6,000,000 worth were gray cotton cloths, which can be produced as cheaply in the United States as anywhere in the world, but in which we are unable to compete with English shippers in the Chinese markets, not because we cannot manufacture them so well, but because we do not pack them as safely and transport them as cheaply. It may be said that the silver we produce in Nevada is as much a product of our industry as the cottons are of English industry. That would be true if we had not been for eight years exporting specie largely in excess of our production. In view of this fact, if we could grasp England's trade with China in cotton and other manufactures, or a considerable portion of it, it would add very much to the industry of the country, and lessen the drain of specie to a corresponding extent. Sooner or later, as the condition of our return to specie payments, our trade with the outer world in general must leave such a balance in our favor that the precious metals may accumulate here in a degree sufficient to make resumption and redemption in specie possible; and in no part of the world opens so large an opportunity for increased commerce as with Eastern Asia, if our means of transit are brought within the possibilities of commerce.

BRUTALITY IN SAN FRANCISCO.—Under the administration of McCoppin, Provines and their police appointees, San Francisco is rapidly lapsing into the condition from which the Vigilance Committee redeemed it years ago. The following, which we clip from the *Times* of June 12th, is a sample of occurrences that are becoming almost too numerous to attract attention in our Pacific metropolis. The *Times* says:

On the evening of June 3d, two men were arrested by officers Cummings and Thal, for knocking down and beating J. W. Fuller, on Sutter street, near Kearny. The outrage was perpetrated at an early hour in the evening, and was witnessed by a number of persons. The two men were entire strangers to Fuller, and the attack was without provocation or pretext. It was intimated at the time that the two men were hired to make the attack. Fuller had taken some steps toward instituting suit against some gambling establishment and threats were made a few days before that he might find his head broken if he did not desist. The trial of Smith and Cunningham was concluded in the Police Court yesterday, and the testimony fully sustained the theory that the men were hired to perpetrate the outrage. Several witnesses testified to the circumstance of the beating. Wm. Kirby testified that the defendants told him they were going to whip Fuller, and he knew that they got $50 for doing the job, for he obtained $15.50 of the money himself from Smith. They told him they were going to whip him on the day it was done; and he expected they would do it at about the time when and the place where it did occur. Certain parties described Fuller to him and the prisoner as the man who was to be attacked and beaten. The witness declined to answer what he got the $15.50 for, on the ground that it would tend to criminate himself.

"SEVEN UP" ON WHITE RIVER.—The following serio-comical incident on a recent rise on White river, is told by the Indianapolis *Mirror*, May 31st:

Yesterday, a large number of citizens walked across the White river bridge and stood on the dike to look at the overflowed country, adjacent to the peaceful hamlet of Stringtown. A couple of bummers, apparently to show their indifference to "dangers by flood and field," as well as their independent disregard for the sanctity of the Sabbath, straddled a plank across a panel of rail fence, produced a greasy pack of cards, and proceeded to play a game for drinks. The game proceeded, the drinks being frequently taken in advance out of a black bottle which the bummers had stowed away for Sunday use. In the midst of dispute about "game," the fence was swept away by the current, and the two players plunged into the roaring flood. One of them, who could swim, struck out manfully, and soon reached a place of safety, crawling out on the bank, dripping muddy water like a Newfoundland dog who had gone into the water after a stick, and looking crestfallen and sheepish. The other man had never cultivated water sufficiently to acquire the art of swimming. He sank, came up sputtering, sank again, sputtered again, and was being carried every moment further out into the current. The crowd on the bank didn't seem to consider it a matter of much importance whether he drowned or not, until a young drug clerk, named Rhodes, sprang into the water, swam to the drowning man, caught him from behind under the arms, and succeeded to reach the shore. There the fellow, looking a little pale, but sullen, picked up his boots and left, without even a look of gratitude to his preserver. We venture to say, however, that the next game of seven up he indulges in will be played on a more secure foundation.

A Mr. Dick, of Oshawa, Canada, has invented an improved velocipede which far surpasses all others in speed. The gearing is so arranged that with one motion of the foot the front wheel will make two revolutions, another brake will throw the machinery into gear, so that the foot will move twice to one revolution of the wheel—adapted to ascending hills, a third adaptation will throw the cranks off the wheel, and thus the velocipede will roll down hill without the feet moving. A fourth arrangement will convert the whole into an ordinary bicycle. It is furnished with a brake to check the speed of the machine. When put to its full speed it can be driven a mile in two minutes.

The *Medical Gazette* has a strong article on "The Infection of Crime," which condemns the too prevalent practice of publishing highly wrought accounts of criminal actions. It says that these descriptions tend to excite in unsound and depraved minds a desire to repeat the enormities portrayed. It continues: "Many a man may have a proclivity towards unprovoked homicide, or self-destruction which would have remained latent were it not excited beyond restraint by the overdone sensational journalism of the day may it not be safely said that no man free from such proclivity could relish the perusal of such details.

The Empress Eugenie, before the birth of her son made a vow that if an heir to the throne was born, she would give thanks for the blessing in the Garden of Olives before he attained his fifteenth year. She is now about to commence the journey in fulfillment of her vow. The cost of the trip is estimated at only two and a half million francs.

GENERAL NEWS ITEMS.

Connecticut has fifty-five savings banks, in which 149,919 depositors have put $41,503,000.

Carnot, who has been defeated in the French elections, is the son of Carnot, the "organizer of victory," the *Stanton* of the French Revolution.

Col. John Hay, formerly private Secretary to President Lincoln, and lately Consul at Paris, has become editor of the Springfield (Ill.) *State Journal*.

Mrs. Sprague has transferred her headquarters from New York and Washington to Atlanta, Ga., and is steadily working to secure Southern votes for her father, Chief Justice Chase, in the next Presidential election.

The St. Louis papers claim that the merchants of their city will "capture" the trade of Colorado and Utah when the Kansas Pacific Railroad is extended to Denver, and the projected road from the Union Pacific to Denver is finished.

A society to "Promote the Cause of Ventilation" has been organized in New York. A monthly journal is to be established, in which the deleterious effects of imperfect and the sanitary benefits of perfect ventilation will be fully presented by statistics, etc.

In time of peace it cost to govern one million of whites and four hundred thousand blacks, on the Island of Cuba, nearly twenty-five millions of dollars. Not to speak of other exp…, the war is going on at the rate of $30,000,000, or at the rate of $30 a head. The Captain General is better paid than the President of the United States. The Bishop of Havana receives about $18,000 a year, and the Archbishop of Cuba the same, exclusive of a pension given of late years to the *illustrissimo* Padre Claret, now confessor to the "mobled Queen."

THE SUMMER'S JOURNEY ACROSS THE CONTINENT.—Mr. Bowles closes his articles in the *Atlantic Monthly*, on "how to go and what to see by the Pacific railroad," with the following outline for a two months' journey to the Pacific States by that new and attractive avenue of travel:

From Omaha to Cheyenne and Denver	2 days.
Excursions in Colorado	9 "
To Salt Lake City	2 "
Stay in Salt Lake City	2 "
To Virginia City and there	2 "
To San Francisco, with 2 days to stop on the way	3 "
In and about San Francisco	7 "
Yosemite Valley and Big Trees	10 "
Overland to Oregon	6 "
From Portland to Victoria, through Washington Territory and Puget's Sound and back	7 "
From Portland to Salt Lake by Columbia River, Idaho and Shoshone Falls	8 "
From Salt Lake to Omaha	2 "
Total	60 "

This is obviously a short allowance for so comprehensive a journey; but every traveler can enlarge it to suit his comfort and convenience. He cannot advantageously cut down Colorado, San Francisco and its neighborhoods, or the Yosemite, but may well add a week to each. Another month would allow the traveler to return through Montana and down the Missouri, besides scattering a week along through the previous portions of his journey. Two months more still—or from June 1st to November 1st would include, with all the above, a liberal excursion to the Sandwich Islands. And the weather in all these five months would be favorable for every part of the grand trip; only in the Islands would waterproofs and umbrellas be needed. For the two months journey, we would recommend July and August; for the three, July, August and September. California is in its summer glory in April and May; but that is too early for its mountains or the Yosemite; and the Parks and Mountains of Colorado, though possible in June, are much more accessible in July and August.

DO WOMEN BELIEVE IT RIGHT?—The Salt Lake correspondent of the San Francisco *Chronicle*, writes:

But few women, however, endorse this doctrine of polygamy, and then only through religious fervor. The balance merely submit. Indeed, what else can they do? When the Elder is the church, or the correspondent imbued with Mormonistic prejudices, tells you that they are happy, don't believe them. Take reason first, and afterward talk with the women, if you can obtain an opportunity to do so. Ask of the woman who has been a wife for many years—who gave her first love to the husband of her youth—ask of her if she believes it right to have the place she has heretofore held in her husband's heart and home usurped by a younger and more enticing woman. Think you she will say that it is right, that she is happy, when she beholds the dream of her girlhood—which, increasing with her years has become a reality—dashed to the ground, and herself left in the position of a pensioner on her husband's bounty—a reproach on her new found love? Think you, when sitting in her now lonely room, pondering over the loss of her fondest hopes, weeping bitter tears over her bereavement; think you that she then can forget her outraged womanhood and say that she is happy—that such is in obedience to God's law? And when she strokes the golden curls of her little daughter, and sadly reflects that the same fate awaits her when her budding beauties shall have attracted some lecherous old vampire whose loathsome passions can only be aroused by youthful charms—think you that she is happy then, when she reads the same future reserved for her darling offspring? No reasonable man can suppose it or expect it. Talk with them and they will tell you, as they have told others, that they would rather that their darling's soul would wing its way to God who gave it, than that the loved one should live and suffer as they have suffered, in the destruction of the heart's best and holiest affections. All this, and much more, can be learned by conversing with those in whom fanaticism has not destroyed womanhood.

Suppose.

How dreary would the meadows be
In the pleasant summer light
Suppose there wasn't a bird to sing,
And suppose the grass was white!

And dreary would the garden be,
With all its flowery trees,
Suppose there were no butterflies,
And suppose there were no bees.

And what would all the beauty be,
And what the song that cheers,
Suppose we hadn't any eyes,
And suppose we hadn't any ears!

For though the grass were gay and green,
And songbirds filled the glen,
And the air were purple with butterflies,
What good would they do us then?

Ah! think of it, my little friends,
And when some pleasure flies,
Why, let it go and still be glad
That you have your ears and eyes.

William R. McCracken—The Author of the Motley-Seward Letter.

To the Editor of the Sun:

SIR: A brief paragraph under the head of "Personal Intelligence," in the *Sun* of this morning, announces the death of William R. McCracken, at Bloomington, Ill., and expresses a belief that he was the author of the letter from Europe which led to the resignation of Minister Motley.

The writing is familiar with Mr. McCracken's history, having first met and made his acquaintance in Lima, Peru, some fifteen years ago. At that time Mr. McCracken was engaged in the publication of a newspaper, printed in English, called the *Foreign News*. He soon became obnoxious to the Peruvian authorities, and the American Minister, J. Randolph Clay, as well, and was compelled to surrender the publication of his paper to other hands.

Before going to Peru, McCracken had been employed as editor of the Sacramento *Union*, in California, and was elected Treasurer of Sacramento County. His sudden departure from California was doubtless influenced by the discovery of a deficit of many thousand dollars in his accounts.

After his retirement from the *Foreign News*, McCracken lingered about Lima and Callao for a month or two, and was finally imprisoned on the charge of burglary. The penalty for this offense would have been ten years in the chain-gang at the Chincha Islands; but Mac succeeded in escaping from prison one night, breaking his leg in the attempt. He was carefully secreted for several weeks by his American friends, and with their assistance made his way to the interior, and finally out of the country.

Three or four years later he turned up at Bloomington, Ill., where he became connected with the *Pantagraph* as local editor. Soon after, he married the daughter of a wealthy and respectable gentleman of that city, and was assisted in the establishment of a new paper. Of an irascible temper, he soon quarreled with his wife's relatives, and was summarily banished from their roof.

During the war Mac obtained a position in the Quartermaster's Office at St. Louis, but was soon discharged. Wandering about from post to point, he became [illegible] and desperate, levying contributions in the way of loans from old friends wherever he could, excite their sympathies by pitiful recitals of his domestic grievances. The writer met him at the St. Nicholas Hotel in this City, in 1864, gave him money, and advised him to enlist. This Mac promised to do, and started for the recruiting station in City Hall Park for that purpose.

But changing his base, Mac in some unaccountable manner, succeeded in getting to Europe, where his chief business seemed to be borrowing money from American officials at the different capitals. A refusal to come down [illegible] for a scorching letter to [illegible] journal, and in two three [illegible] ed to Mr. or Se [illegible].

[illegible] Mr. McCr[acken] was the author of the famous Seward-Motley [letter], and the whole [illegible] his [illegible] the fact that he had [illegible] bbed by our Minister to V[ienna] [illegible] Mac [illegible] owledged this to me on his [illegible] Europe; but his squalid poverty [illegible] and his general ph[illegible] [illegible] to excited my pity, and [illegible] not to expose him. The papers were at that time full of inquiry about the authorship of the Motley letter. "Who is McCracken?" [illegible] leading editorials in every newspaper in the land, but the identity of the author remained a secret.

As a part of the stirring political history of the past few years, these facts may not prove uninteresting to the public.

No. 432 Broome-street,

SWINDLED AND OUTRAGED.—Thomas Jefferson Clarke, of Newcastle county, Delaware, has been victimized by the adoption of the odious Fourteenth Amendment. Thirty-six years ago he purchased a negro woman, who, with her daughter, since the birth of the latter, continued in his service thenceforward as slaves, the owner of the founder of the Democratic party and author of the "Resolutions of '98," availing himself of their ignorance to continue his restraint upon their liberty and still holding them in a condition of lav[ery] [illegible] up to September last, when they, for the first time, learned that slavery had been abolished. They then brought suit against Mr. Clarke for 142 weeks wages. Senator Bayard appeared for the defense and objected to the daughter's evidence, when offered in support of the mother's claim, but the Court admitted the testimony, impelled thereto by the provisions of that piece of corrupt legislation, that Radical infamy, the Fourteenth Amendment. Mother and daughter each obtained judgement for $250. Clarke who magnanimously attempted to profit by the [illegible] of these people, would doubtless [illegible] know if that is what you call [illegible] a fallen foe?" In time, we ask [illegible] hope, the news of emancipation and abolition will have been circulated throughout the great State of Delaware.

This sum, enormous as it seems, is totally eclipsed by the magnitude of the interest which the Coast is losing for want of it. For instance: Its yield in the East at 6 per cent., compounded annually for ten years, is $6,952,107 27; here at 12 per cent, for four years, and 10 per cent. for six, compounded, monthly, $25,090,906 62, or a difference of over eighteen millions!
With these facts in view what Company will likely pay the largest Dividend? The funds of the PACIFIC are all loaned at 1 to 1½ per cent. per month.
Of this large sum it is computed that Oregon and Washington Territory have contributed about one-fourth. This involves the sending away annually, to keep up the Premiums on Policies already issued, at least six or seven hundred thousand dollars, which if continued will soon drain the State of all its cash. If to California, it finds its way back here for our productions, a market for which we must look for there.
The applicant need not wait two or three months to know if he is accepted or rejected, but can receive his Policy in less than two weeks, and in case of death the money will be paid to his wife in as short a time.

HYGEIAN HOME
WATER CURE,
637 California Street,
Opp. St Mary's Cathedral, bet. Kearny & Dupont Sts.,
SAN FRANCISCO.

DR. BARLOW J. SMITH

WOULD RESPECTFULLY INFORM HIS FORMER patrons, and all who desire the professional services of a Hygienic Physician, that he has just returned from the East, after an absence of four months, during which time he has visited nearly all the Water Cures in the Eastern States, and the various Hygienic Establishments of New York City, Boston and Philadelphia; and with this new experience feels more fully prepared than ever to meet all the demands that invalids may justly claim who desire to be cured by this rational form of medication.
In January last DR SMITH purchased the extensive lot corner of Quincy and California streets, with the buildings thereon, which he has fitted up at great expense, for the accommodation of PATIENTS and BOARDERS, with a greater variety of baths for the cure of DISEASE as well as popular bathing than is to be found in any Water Cure in the United States.
HYGEIAN HOME is the only Regular Water Cure in San Francisco, and by far the most extensive and complete Hygienic Institute on the Pacific Coast.
And we offer to Ministers, Teachers, Lawyers, Miners, Merchants, Mechanics, Farmers, and all worthy persons, especially those who have tried drugs faithfully without being restored, and who are still desirous of regaining health by this rational system of medicine, the hospitalities of our Hygienic Home and Cure. Young men who have become debilitated or lost their health by excessive toil, exposure or enervating habits, contracted through ignorance of physical laws, may with us find more of the encouragement they need, and means that will restore them to health, than elsewhere in California.
There is not one man in twenty suffering from Rheumatism, Neuralgia, Gout, or Diseased Liver, Chills and Fever, Dyspepsia, Drug or Secondary Diseases, Spermatorrhoea or Seminal Weakness, Impotency or Nervous Debility, Weak or Inflamed Eyes, Bronchial and Catarrhal Affections, Disease of the Heart, Lungs, Kidneys, Constipation, Paralysis, Scrofula, Piles, Inflammation of the Bowels, Chronic and Acute Diarrhea, Stiff Joints, Oak Poisoning, Weak Backs, Hip Disease, Salt Rheum and many other Diseases common to Men and Women, that cannot be permanently cured in from two to six weeks by Water Cure and Hygienic treatment. Not only will they get cured, but they can learn how to keep well when they go to their mountain homes, their mines, their farms, their stores, and all this for one-half what it would cost to take drugs.
Terms $20, by the single week, or $80 for four weeks, Board, Room and Treatment in all ordinary cases.
N. B.—All suffering from cutaneous diseases are treated in separate baths, which are never used by persons bathing for cleanliness. The greatest care and neatness is observed in this respect. No contagious diseases, such as Small Pox and Ship Fever, treated in the Institution.
We have a separate Medical Department for Ladies, which is attended by a thoroughly competent woman, while the private residence of DR. SMITH, which is connected with the Home, is chiefly devoted to the accommodation of ladies desiring Hygienic medical treatment.
We have for the past ten years made the treatment of female diseases a specialty, and have treated a great number of females, both in the Institute and in their private residences in this city, Sacramento and Oakland, who were suffering from Displacements, Prolapsus Uteri, Uterine Hemorrhage, Sterility, Curvatures of the Spine, Inflammation, Congestions, and ALL NERVOUS DISEASES, together with diseases common to all.
The ease and rapidity with which the varied diseases and conditions above mentioned have been overcome, especially in the vicinity of the Bay, fully warrant us in declaring that he is able to treat all with success who is thus afflicted but to a fair trial. To which we are happy to say from three to six weeks is enough. Hydropathic and Hygienic treatment at our Cure. From all who have come to us and been treated, we have yet to learn a single regret from Husband or Wife. If the true means of trouble they sought, it is HYGIENIC MEDICATION ... they will get well, but learn how to keep well.
Terms for Ladies $25 a week, or $100 for six weeks. Board, Room and Treatment.
DR. SMITH gives Free Lectures to his patients every Wednesday evening at 8 p.m. Lectures before the Ladies' Hygienic Society the first Wednesday in each month.

HIRAM SMITH'S

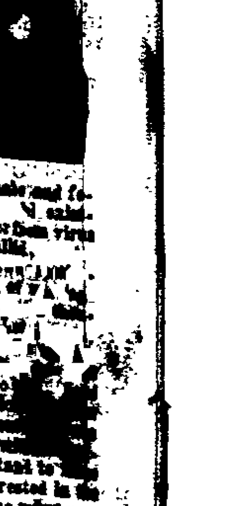

Ophthalmic Panacea!

IS WITHOUT DOUBT THE MOST WONDERFUL EYE HEALER that has yet been discovered.
It CURES the most stubborn and hopeless cases of CHRONIC INFLAMMATIONS, GRANULATED LIDS, FILMS, &c., as has been sufficiently demonstrated during the few months in which it has been brought into public notice. The proprietor is so fully convinced of its INFALIBILITY that he WARRANTS A CURE OR REFUNDS THE MONEY. It can do the eyes no harm, and a trial of it is therefore without injury or expense to the patient if a cure is not effected.
It has cured cases of FIVE, SIX, NINE, fifteen, and even EIGHTEEN YEARS' standing in Harrisburg, Linn county, Oregon, and its vicinity, to which the following persons will bear witness:

E. B. MOORE,	NATHANIEL BELL,
A. L. WALLACE,	G. R. WARD,
Mrs MONTGOMERY,	JOHN M. HOLLOWAY,
W. D. PORTER,	ROB'T RAMSEY,

And others in that vicinity.
Persons afflicted with the distressing scourge of diseased eyes are advised to give this remedy a fair trial on the NO CURE, NO PAY and NO INJURY plan.

TO THE UNFORTUNATE.
NEW REMEDIES, NEW REMEDIES
Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and General Diseases, such as Gonorrhoea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Disease.

How many thousands of persons, both male and female, are there who are suffering out[illegible] ence from the effects of secret indulgences, or from virus absorbed into the system. Look at their pallid, [blo]ted and disfigured faces and their broken [illegible] tions, disqualifying them for the happiness [of life] or the enjoyment of life. In this horrid [illegible] sands suffer until death closes the scene. [illegible] guardians, friends, attend to those who are [illegible] any of these horrible life-destroying [illegible] they are cared for and cured before it be too [late], them immediately to Doctor Gibbon, a physician [who has] made private disease his especial study for years [illegible] is certain to cure the most inveterate cases [without mer]cury or any injurious drugs. It is important to [those] who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing [their skill] in curing all diseases in a few days, imp[osing on the] public by using the names of eminent phy[sicians of] Europe and other places. Be therefore careful [and make] strict inquiry, or you may fall into the hands [of] charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse, solitary vice, or depraved sexual indulgence, is [practised] by the youth of both sexes to an almost unlimited [extent], producing, with unerring certainty, the [train] of morbid symptoms, unless combatted by [medi]cal measures, viz: Sallow countenance, dark [spots under] the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, [uneasiness] about the loins, weakness of the limbs, co[nfused vision,] blunted intellect, loss of confidence, di[ffidence in ap]proaching strangers, a dislike to form [illegible] a disposition to shun society, loss of [memory,] flushes; pimples and various eruptions about the face, furred tongue, feted breath, coughs, co[nsumption, night] sweats, monomania and frequent insanity. If relief is not obtained, should apply immediately, either in person or by letter, and have a cure effected by his [sci]entific mode of treating this disease, which [is] effecting a quick and radical cure. Dr. G. will give [One] Hundred Dollars to any person who will prove [satisfacto]rily to him that he was cured of this complaint by any of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are under any of these fearful maladies, should not [assume the] sacred responsibility resting upon them nor [until they] obtain immediate relief.
DOCTOR GIBBON is responsible, and will give [every] patient a written instrument, binding himself to [effect a speedy] and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr. Gibbon, [stating symp]toms, length of time the disease has [continued, and have] medicines promptly forwarded, free from [damage and] curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent by [mail, by Express] tor or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and [imposters] who, with bogus sworn-to certificates, du[pe the unwary]. Some of the self-styled doctors, whose names are found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and lazy to work at their trades. Some are [shoe]makers, newspaper carriers, intelligence offices, etc. Look over the San Francisco Directory, [you] will not find their Medical Institutes in it, but find their former occupations in it. Look at [the direc]tory for 1862 and 1863. The only way to avoid [imposi]tion is to make enquiry—it will cost you nothing, and may save you many regrets; for, as advertising [physi]cians, in eight cases out of ten, are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive by exhibiting bogus titles, certificates, pretended letters, etc. Dr. Gibbon will satisfy [all who] call at his office of his ability to treat [illegible] proposes to cure.
Address DR. J. F. GIBBON, 623 Kearney street, corner Commercial, (Private Entrance on C[lay street]), San Francisco. Post Office Box 252.

THE APPETITE FOR TOBACCO DESTROYED!

LEAVE OFF SMOKING AND CHEWING THE POISONOUS WEED, TOBACCO.

ORTON'S PREPARATION!
ESTABLISHED 1866.

One box of Orton's Preparation is warranted to destroy the appetite for Tobacco, in any person, no matter how strong the habit may be. If it fails in *any case the money will be refunded. It is perfectly safe and harmless* to all cases. It is almost impossible to break off the use of Tobacco by the mere exercise of the will. Something is needed to assist nature in overcoming a habit so firmly rooted. With the help of the Preparation, there is not the least trouble. *Hundreds* have used it who are ready to bear witness to the fact that Orton's Preparation completely destroys the appetite for Tobacco and leaves the person as free from any desire for it as before he commenced its use. The Preparation acts directly upon the same glands and secretions affected by Tobacco, and through these upon the blood, thoroughly cleaning the poison of Tobacco from the system and thus allaying the unnatural craving for Tobacco. *No more hankering for Tobacco after using Orton's Preparation. Recollect it is warranted.*
The time taken to allay all desire for Tobacco, by the use of the Preparation varies *slightly* in different persons, the *average* time being about *Five* days. Some have no desire for Tobacco whatever after using the Preparation *Two* days.
The *Health* and *Purse* of every Tobacco user in the country calls loudly, ABANDON THE USE OF TOBACCO.

RECOMMENDATIONS.

The following are a few selected from the multitude of recommendations in our possession.
We, the undersigned, hereby certify that we have used Orton's Preparation for the purpose of destroying the appetite for Tobacco, and can assure those suffering from this habit that Orton's Preparation will entirely destroy the appetite for Tobacco *quickly* and *permanently*, and without any bad effect upon the health and without creating an appetite *either for the Preparation or any substitute.*

From Samuel Crandly, Editor Journal & Argus!
PETALUMA, CALIFORNIA, Dec. 24, 1868
For about twenty years I had used Tobacco in its various forms, and for the past eight years had been an inveterate smoker. Becoming satisfied that the excessive use of this narcotic was seriously injuring my health, I determined if possible to check and end the habit. Hearing of Orton's Preparation for destroying the appetite for Tobacco, I sent to Portland, Me., for a box of the medicine, which I received through the mail on the 17th of November. A month has not elapsed, yet the medicine has effectually relieved me from any yearning or desire to use Tobacco in any form. The Preparation is not more difficult or unpleasant to take than to commence chewing gum. I conscientiously believe the Preparation will have the promised and desired effect in every instance where it is given a fair trial. Upon that belief and from an honest desire to assist those who wish to break away from the slavish appetite for Tobacco I offer this testimonial.
SAMUEL CRANDLY.
☞ *Beware of Counterfeits and all articles purporting to be like this, of the same name or otherwise. The great popularity of Orton's Preparation has induced unprincipled persons to attempt palming upon the public counterfeits and inferior articles. Purchasers will please order directly from the Proprietor or his duly authorized Agents.*
The price of Orton's Preparation is $2 per box, or three boxes for $5, sent by mail to any part of the country securely sealed from observation, with postage paid on receipt of price.

It is Definite and Certain in its Terms.
It is a Home Company in every locality
Its Policies are Exempt from Attachment.
There are no Unnecessary Restrictions in the Policies.
Every Policy is Non-forfeitable.

The Hon. Jno. E. Sandford, Insurance Commissioner of Massachusetts, in his Report for 1868, speaking of Dividends in Life Insurance Companies, says: "The sooner such guarantees cease to be made, and such expectations created, the sooner Life Insurance will come to rest on its true motive, and men insure their lives for security, and not for dividends. The best and most popular companies will then be those that promise only equity, and render all that they promise, and furnish the best security, with the most upright and judicious management."

"By the Stock plan, the full cash effect of the Premium is immediately secured to the Insured, the Company taking ALL the risk. By the Mutual plan, the full value in Insurance of the Premium paid, is not secured to the Policy-holder, who takes a portion of the risk himself."

G. VENARD,

CHARTRES COFFEE!

Manufactory Established in June, 1851.

STEAM POWER NOS 625 AND 627 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of it consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.

The Daily Oregonian.

THURSDAY MORNING, JUNE 24, 1869.

The Political Future in Oregon.

The result of the election in Washington Territory, followed by the signal Republican success in this city, affords striking evidence of the fact that the Republican party in this quarter is not only maintaining its ground, but is actually growing stronger in the confidence of the people. Appeals to the prejudices of men against the "inferior races" have spent their force, and the current talk of Democratic leaders about repudiating the public debt goes against the conscience of the people; and since these things are so, the weapons of Democratic warfare are pretty thoroughly exhausted. The feeling pervades the public mind that the Republican party is the party of justice, the party of national ideas, and the party in whose hands the country will be most safe and secure, while on the other hand there is a feeling, however latent and unobserved it may be, that somehow it would be dangerous to entrust the destinies of the country to the Democratic party. There is something in the doctrines of this party that goes against the moral sense of the people, and they therefore shrink back with fear and dread from the idea of placing it in power. The masses of the people are honest and will not tolerate any proposition which threatens the honor of the nation or a disregard of its solemn obligations. It is this popular distrust of the Democratic party which withers its strength, drains it of its vigor and checks its progress. A popular dread of the probable consequences of Democratic rule has repeatedly defeated that party in its efforts to regain its hold upon the helm of government.

The elections which have recently transpired indicate the ability of the Republican party to carry Oregon next year. Multnomah county may now be regarded as very sure. All admit that the election just held in this city must have a very marked influence upon the rest of the State. The Democratic triumph in the State last year was largely due to the prestige that party had gained in carrying this city. So now, the triumph of the Republicans here will reassure our friends in all parts of the State and show them the way to victory. Republicans here and elsewhere throughout Oregon should take advantage of this opportunity. Keep the ball rolling. Let us be prudent and conciliatory. Let all personal aspirations be sunk in a common desire to secure the triumph of the party and the success of its principles. Shun all combinations in favor of one set of men or another, and avoid all "slates" which may be made up before the party has in due form selected its candidates. It will not do to allow the impression to prevail that these things are manipulated beforehand in the interest of any particular set of men. With unity of action, such as we can easily secure by a judicious course, we can win a great victory in the State next year. It should be the aim of every Republican to assist in bringing about this result. If we pursue the right course, there are multitudes who acted with the Democratic party last year, but who cannot submit to the violent and dangerous counsels that now prevail in that party, who will go with us. No Republican ought to forget how much depends on the election of next year.

Vallandigham Prophesies.

Vallandigham sticks to the Democratic party like a very tight barnacle, and will not be shaken off. A few months ago he made signs of adopting a more reasonable policy; but he has gone back from that idea and is now as fierce an advocate of Copperheadism as ever. The New York *World* a short time ago referred to him as one who "had brought obloquy upon the party." Hereupon the dauntless Vallandigham takes his pen and says the *World* combines "wickedness" with "stupidity;" that there is not anywhere a "greater political villain" than Mr. Marble; and that it has been "the unspeakable misfortune to the Democracy that Opdyke and the other wealthy leaders of the Republican party had the sagacity to refuse the price which Marble begged as the condition of his remaining in open fellowship with that party." But worse remains behind. He winds up with the following notice: "To the *World*, and whom else it may concern, we say that the 'Copperheads' will be in the Presidential convention of 1872 (which will not be held in New York) in greater numbers and with more determined purpose than ever before. They were cheated *after* the convention of 1864, and *at* the convention of 1868; and they mean to be deluded no more. And he whom the *World* calls the 'leader' of the Copperheads will, if God please, be there too; not called in vicariously at the death, when violent remedies are demanded, and the problem is to 'kill or cure,' but as an original delegate. All will be there as apostles of ultra Democracy."

In General.

The Walla Walla *Statesman* censures the Democratic organs of this city for its unkind reference to Gov. Moore. Contrary to the Oregon paper's assertion, the *Statesman* says that "Gov. Moore gave great satisfaction to the Democratic party."

The Irish voters of the city have helped to bring the *Herald* to its senses. With great humility the Democratic organ now admits that its party has treated the Irish voters very shabbily. It says "they have been asked to do all the work (of the Democratic party) and receive none of the rewards." What a confession for the organ of a party that never tires of boasting of its regard for adopted citizens! The *Herald* is very humble now, hoping to bring back the votes which its party has lost by its selfishness and ingratitude.

The Republican party in Washington Territory is much indebted to Elwood Evans for the completeness of its recent triumph. With no notion beyond a desire for the success of the party, he entered the field at the beginning of the campaign, and worked with untiring energy till its close. By this course he has set himself fully right with the Republican party. Having accomplished this by the honorable part he bore in the canvass under circumstances which preclude any imputation of interested motives, he has withdrawn from politics and gone to work as a private citizen in his profession at Olympia.

The *Herald* takes great credit to its party for the improvement of the streets of this city. Now it is well known that this system of improvements was fully inaugurated by the Republicans before the Democrats got control of the city government. The laws under which the system was organized are Republican measures, the principal business streets of the city were improved throughout their whole length while the Republicans held the city government, and the whole system which has been in operation during the period the Democrats have controlled the city was set in motion under Republican administration. The Democrats therefore have done nothing but continue the work which the Republicans began. They have simply gone forward with the work after we had shown them how it was to be done.

When Ohio was first settled it was one of the best wheat producing districts of the country. Acting on the theory that the soil there needed no manure, the land has got too poor to compete with the richer new lands farther West; and grain culture has been very generally abandoned for stock raising, which has been found to pay better. Instead of raising grain to export, as they once did they now do not grow enough for home consumption. About two million bushels annually are imported into the State. The State Board of Agriculture of Ohio has determined to do something to get up again the wheat-raising reputation of the State, and offers a premium of one thousand dollars to any one who will raise forty bushels to the acre for three successive years, and show "how to do it" by any average Ohio farmer every year.

The nominations made by the Republicans for the late municipal election continue to give the *Herald* great concern. In view of the majorities gained this concern is very natural. It pains the *Herald*, however, that when the nominations were made "the claims of old and life-long Republicans were ruthlessly set aside at the beck of expediency." Now the "organ" would do well to exercise its benevolence in administering consolation to its defeated party brethren, rather than in pitying the victorious and jubilant Republicans. No candidate, however, was nominated by the Republican Convention who did not vote for President Grant and who is not heartily in accord with the party. The Republican Convention "sacrificed" nobody. The party claims the right to select such candidates from among its members as it thinks fit. It owes no man a nomination.

The Olympia *Transcript* is indignant because we have had something to say about politics in Washington Territory, and intimates that these things are none of Oregon's business. The recreant Federal officers of that Territory talked differently when they were at Washington City last spring beseeching the Senators from Oregon and other persons from this State to assist them in getting their offices. They thought then that it *was* Oregon's right and duty to take a part in these affairs. The *Transcript* says that we are condemning its friends in Washington Territory for "proposing to conduct the politics of the Territory as the people choose." Not so. We are censuring them for attempting to thwart the will of the people and to balk the efforts of the Republican party. For full information in regard to the "will of the people," see election returns. For full information as to what the Federal officials attempted to do, see Barnard's letter.

The East and the West.

Chicago, which is always claiming to be something or other, now demands to be considered an Eastern city and no longer spoken of as belonging to the West. This claim, however, is well founded. From Chicago it is only 900 miles to the Atlantic coast, while it is 2,350 miles to the Pacific coast. Dividing the Union into east, center and west, each division is about 1,100 miles wide. The eastern division will embrace all the States lying east of the Mississippi river; the central, all the States and Territories between the Mississippi and the Rocky Mountains, and the western, all the States and Territories between the Rocky Mountains and the Pacific coast. The largest of these three great divisions is the central, but the territory lying west of the Rocky Mountains contains as many square miles as the territory east of the Mississippi river, notwithstanding this comprises eleven Southern, all of the so-called "eastern" and "central" States, and all the old "northwest." The actual west, Chicago says, now consists of California, Oregon, Washington, Nevada, Arizona, Utah, Montana, Wyoming, and the majority of Colorado and New Mexico. We think Chicago has proved her case and should be welcomed by her older eastern sisters into the thriving family. A Pittsburg paper begs, however, that she will not quarrel with Boston, who is somewhat apt to give herself airs on the score of her Common, big organ and monster drum. Let us have peace!

OREGON.

The erection of the new court house for Douglas county has commenced at Roseburg.

The dryness of the season has affected the crops in Union county very unfavorably.

In Umpqua valley, last week, the thermometer showed 103 degrees in the shade.

The La Grande *Sentinel* has noticed some very fine hops growing upon several farms in Union county.

During a thunder storm in Jackson county a barn belonging to Mr. Kilgore was struck by lightning and badly damaged. The lightning struck in other places in the vicinity.

The Roseburg paper says: Very encouraging reports continue to be received from the Myrtle Creek mines. We are informed that in the Weaver claim $124 was taken out by five hands from ten hours washing. Other claims are said to be superior to this.

THE WEST.

After many vicissitudes the Boise *Democrat* has finally ceased publication.

California flour is now going in large quantities to Salt Lake by rail.

The thermometer stands at 112 degrees "in cool places" at Boise City.

The railroad surveyors on the California and Oregon railroad, are said to be near Red Bluff, on their way northward.

It is reported in Vancouver that J. D. Potter of that place has been appointed Chief Justice of Washington Territory, vice Dennison, removed.

A little daughter of Mr. Buckley's, who resides 2½ miles above Boise City, fell into the ditch of the Boise Valley Water Company on last week and was drowned before the accident was discovered.

During a thunder storm at Walla Walla last week, Scholl's butcher shop was struck by lightning. The current passed down the chimney into a stove and through to the floor. No one was injured.

Gen. Tilton, chief engineer of the western division of the Northern Pacific Railroad, is expected to arrive at Olympia this week. The *Tribune* says work will be commenced at both ends of the road this summer. The first work will be the survey of the route from the Sound to the Columbia river.

The Commissioner of Internal Revenue has decided that a one-dollar stamp only is required upon a deed conveying property of the value of $1,000, and reserving a ground rent of $60 per annum as the actual payment. The point in dispute in this case arises from the additional nominal consideration of one dollar inserted in the deed, but never paid. The stamp tax on deeds expressing a consideration between $1,000 and $1,500 is $1 50, and some collectors argue that this nominal increase to $1,001 requires the payment of $1 50. The instructions from the Internal Revenue Department, however, decide that the *tax must be regulated by the actual and not* the nominal consideration.

The G. A. R. was first organized in Illinois, early in the spring of 1866. Who were its originators is rather a matter of tradition than record, although there can be no doubt that the late Adjutant General B. F. Stevenson was one of the prime movers. Being recognized as such, he organized the first post at Dakota, Illinois, about this time, and from that has sprung the present organization. The order spread rapidly through the State, so that in July following a meeting was called to organize the department. There were some forty posts represented at the convention. They proceeded to an election, and chose General John M. Palmer as their Grand Commander.

The bids for supplying Fort Boise with grain, hay and wood, were opened on the 15th inst. MARRIED.

In the city of Albany, June 20th, 1869, by Rev. Henry Clay Jenkins, Coll Van Cleve, Editor of the Albany *Register*, to Frances L. Mack, all of Albany.

DIED:

At Brownsville, Linn Co., Oregon, Mrs. Adaline, wife of C. J. Flatt, late Principal of the Collegiate Institute, Benicia, Cal.

As manager of the household department of the Institute for thirteen years, Mrs. Flatt became widely and favorably known, and her memory will be treasured by many scattered throughout this coast. Too close application to the duties of her station induced disease which terminated her life while on a visit to her sister Mrs. L. A. Hasbrouck, where she has been from San Francisco only a few days. All that affection and respect could do could not prolong her life, and she passed from earth June 17th, 1869, aged 48 years, 9 months.

Transient guest from Golden Clime
Seeking rest in sister's home,
Swiftly passed thy social bliss—
The [illegible] call had come.

Many shall remember well
Kindness shown with wholesome rule
As their thoughts perchance may dwell
On their Matron, and their school.

May the seeds of kindness sown
In some lonely pupil's heart,
Scatter love throughout the land,
Fragrance which shall not depart.

Fading, fleeting are earth's joys—
Thus shall all of Earth decay
Turn from earthly bliss which cloys
Or glides from us in a day.

June 19, 1869. N. M.

Of consumption June 1[illegible], 1869, Mrs. Mary Elizabeth Barnes, wife of Rev. S. T. Barnes and daughter of John B. and Sarah Jackson, of Washington county, Oregon, aged 22 years 1 month and 11 days. She was advised by her physician and friends to travel, and died thirteen miles west of Grand Ronde, Yamhill county, Oregon. Three years since she professed *religion and joined the* United Brethren in Christ, since which time she has ever proved faithful, and during her last illness she had great joy and peace of mind. A fond husband, two little ones and a large circle of relatives and friends mourn her departure. An obedient daughter, a loving wife and fond mother has crossed over to the Angel Land.

Degree of Rebekah.—Minerva Lodge, No. 19, I. O. O. F. will hold a meeting in the Degree of Rebekah, Thursday evening, June 24, 1869, at 8 o'clock. Members of the Order are respectfully invited to attend.
